REASONS FOR ALLOWANCE

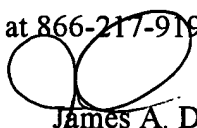

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a polarizing plat comprising an optical compensation layer containing an optically anisotropic layer on one support among transparent supports on the side opposite to polarizing layer, and at least one anti-glare and at least one low-refractive index layer. The prior art of record fails to teach or suggest the optically anisotropic layer is a layer that comprises a compound having a discotic structure unit and has a negative birefringence, in which the disc planes of the discotic structure unit are inclined to the surface of the transparent support at angles changing successively along the normal direction through the optically anisotropic layer in combination with those limitations taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
